# BLADE OF KNIFE BROKEN OFF IN

Still Man Attacked by Hungry Young Maniac May Recover.

Stole Knife from Fruit Vender and Wandered About with It All Night.

William C. Pearson, who was attacked and stabbed by a hungry youth at Twenty-third street and Seventh avemus yesterday, was reported at the New York Hospital to-day as likley to recover. The physicians probing the knife blade, which broke off in his back, said they could not tell for several days how badly his spine was a fected, but added that he had lo complete control of the left leg.

John Earle, the would-be murderer, held at Believue Hospital to await examination into his sanity. He is twenty-two years old. and has been Mying at the home of a mister or at lodging-houses. His mother and several brothers and sisters, eminently respectable, live at No. 239 West Twenty-fifth

According to the boy's gtory he was mad from hunger and had made up his mind to kill the first prosperous looking

person he saw.

The knife broke at the first stab.

eParson turned, saw his assailant and
fail to the sidewalk without marmuring
a sound. When he regained consciousness at the hospital he said he lived
at No. 80 Washington street, hisboken,
and that he was a salesman for a distiller's agent at Thirty-fourth sweet
and Broadway.

"I am the mother of ten children,"
said Mrs. Earle to Dr. Gregory who is
attending her son at the hospital. "All
of them but John are sound of mind.
He fell down a flight of stairs when he
was seven years old and has not been
in his right mind since. He could niways have a good home with me but
he would disappear and be away for
days—sometimes for months and even
years.

We gave him new clothes and everything he wanted, but he disappeared again. One of the bey's sisters is Mrs. Quinn, housekeeper in a furnished-room course in Gramercy Park. She said she cared for her brother until four years ago, when he left because he could not get along with her busband. He returned about two weeks ago.

Earls expresses no regret at his act. "I simply had to eat," he said.

August Furniture. Twelve to One

Years ago when we started the first August Furniture Trade Sale we thought the plan perfectly sound and the idea very bright. Cumulative success through many years proved our reasoning right. Daily sales, large in amount, add further testimony. But it remains for the retail trade of New York to give final witness by a consensus of flattering imitation.

Twelve advertisements of August Furniture Sales confront us. Well-known New York names, more or less prominent, are signed to statements that are more or less lurid with glorious promises. Comparison and analysis make an ungracious task. To do that is the privilege and province of the Public. Ideas are communal-no close corporation holds them in control. Our success with the August Furniture has called forth many shrewd followers. This fact is more your concern than ours. It contains a controlling reason why the Wanamaker August Furniture Trade Sale should command your respect; and, if you are a home-maker, your careful study.

Among the stirring budgets of news that we print to-day about the August Sale of Furniture first place belongs to

## MALARIA TO HEALTH PENNSYLVANIA RAILROAD

August price, \$2; regular price, \$2.75-Golden

Malaria is an atmospheric poison which we unconsciously breathe stagnant ponds, damp cellars, sewer pipes, improperly ventilated houses, decaying vegetable matter, etc. Day after day these germs and poisons are taken into the lungs, and as the blood passes through them it becomes infected with the poison and in its circulation distributes the microbes of disease to all parts of the body. Malaria is a very insidious disease; it gives no warning of its coming until the circulation is filled with the poison and this foe to health has the system at its mercy. The blood becomes polluted, thin and weak and its slow, irregular circulation fails to properly nourish and strengthen the body. Then the entire system into our lungs through the impure air arising from low, marshy places, given bell fails to properly nourish and strengthen the body. Then the entire system is attacked, and if the germs and poisons of Malaria are allowed to remain \*8.25 P. M.—CLE the strongest constitution will break down. No one can feel well when the system is in a malarial condition; the vitality is weak, the appetite poor, digestion deranged, the complexion grows sallow and the entire body feels the effects of the poison. Malaria must be removed from the system through the circulation and the only medicine that can accomplish this is S. S. S. It not only cleanses the blood of all unhealthy, morbid solutions.

matter, but destroys the germs, cures Malaria and restores this vital fluid to a strong, healthy condition, S. S.
